

## Environmental Protection Agency Internet Information

### EPA Region 2

While Freedom of Information Act (FOIA) requests will be honored by directly writing to Region 2, EPA provides an increasing amount of environmental media information, and other Regional activities via Internet at <http://www.epa.gov>.

Region 2 has provided a FOIA Web site <http://www.epa.gov/region02/foia/> with several online databases from which the environmental information can be retrieved.

- **"Frequently FOIAed Files"** Web site <http://www.epa.gov/region02/foia/fff.htm> covers RCRA and many other media Programs. Through this Web site, you can learn about each media Program, associated databases, and special points of interest. In particular, the ability to "directly download" all of the most commonly requested Region 2 Export Files (.xls) and Reports (.pdf) - all compressed for quicker downloading.

EPA Region 2 has established a **list of contaminated facilities** that are a high priority for cleanup in New York, New Jersey, Puerto Rico and the U.S. Virgin Islands. You can view each facility fact sheet at <http://www.epa.gov/region02/cleanup/sites/>

### EPA- Headquarters

- **Envirofacts Data Warehouse** Web site <http://www.epa.gov/enviro/index.html> is a one-stop source to the environmental information. This Web site provides access to several EPA databases with information about environmental activities that may affect air, water and land anywhere in the United States.
- **"My Environment"** Web site <http://www.epa.gov/myenvironment> is a powerful tool that provides a wide range of federal, state and local information about environmental conditions and futures in an area of your choice.
- **The Enforcement and Compliance History Online (ECHO)** Web site <http://www.epa.gov/echo/> provides a list of all inspections and enforcement under most of the environmental statutes.
- **Right-To-Know Network (RTK Net)**, a non-EPA Web site <http://www.rtknet.org/> on-line query engine provides free access to numerous databases and resources on environment.
- **National Biennial RCRA Hazardous Waste Report** Web site <http://www.epa.gov/epaoswer/hazwaste/data/biennialreport/index.htm> provides documents and data on hazardous waste reports.
- **Conditionally Exempt Small Quantity Generators** Web site <http://www.epa.gov/osw/hazard/generation/cesqg.htm> provides information on Conditionally Exempt Small Quantity Generators.

**ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY**

03/05/91

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

**INSTRUCTIONS:** If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the **INSTRUCTIONS FOR FILING NOTIFICATION** before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

## INTRODUCTION

The Sandy Hook Laboratory is part of the federal government agency concerned with marine fisheries — the National Marine Fisheries Service (NMFS) — which in turn is part of the National Oceanic and Atmospheric Administration (NOAA), United States Department of Commerce. There are some 30 other laboratories of NMFS around the United States coastline from Gloucester, Massachusetts to Auke Bay, Alaska — grouped geographically into fishery centers. We are part of the Northeast Fisheries Center, which includes seven laboratories in the northeastern states.

The Sandy Hook Laboratory is a marine fisheries research laboratory. As such we develop understanding of fish and shellfish stocks and the aquatic environment of which the stocks are a part. Our particular area of concern is the Middle Atlantic Bight, which includes continental shelf waters from Block Island, Rhode Island to Cape Hatteras, North Carolina.

Our research is fairly evenly divided between studies of fish and studies of environmental events which affect fish. The fish research emphasizes species of commercial or recreational value, such

## INTRODUCTION

as bluefish, weakfish, flounders, and surf clams. The environmental research emphasizes the productivity of the ocean and the effects of man-made changes such as pollution on this productivity.

During your visit you should see examples of both types of research, and hopefully you will see how the various research projects contribute to greater understanding of living ocean resources.

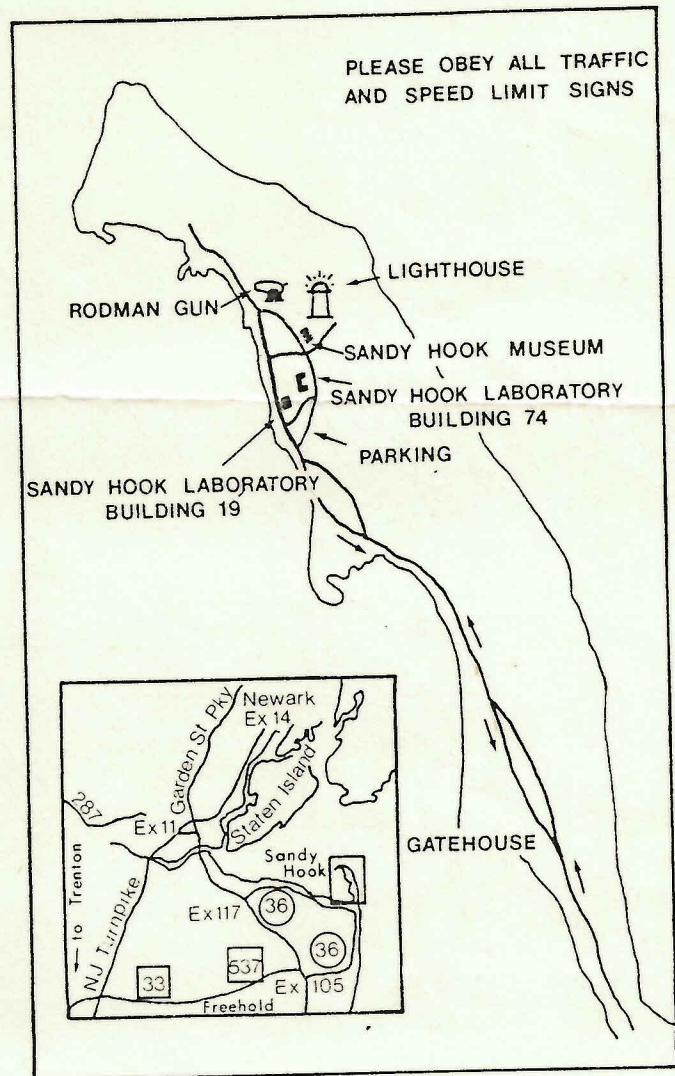

The research staff includes a large number of scientists with advanced degrees in marine sciences. These scientists are members of research groups of varying size which are responsible for particular research tasks within the total laboratory research effort.

Our principal objective is of course, advancement of knowledge — in our case knowledge about fish stocks and their environment. Our research results are applied to management of fish populations and to decisions affecting the coastal environment. We make information available in scientific articles, as well as technical and non-technical reports to fishermen, the fishing industry, fishery management bodies, environmental agencies and the general public.

General Information Item XI. Map Sandy Hook Laboratory

Sandy Hook is accessible from Route 36 at Highlands, New Jersey. Coming from the north take the New Jersey Turnpike to exit 11, connecting with the Garden State Parkway. Follow signs to Route 36 from exit 117 of the Parkway. Coming from the south, take the New Jersey Turnpike to exit 8 at Hightstown. Follow Route 33 to Freehold and Route 537 east through Coits Neck to Route 50 to Swimming River Road. Bear right on 50 to Tinton Ave., turn left and proceed to intersection at Route 35. Turn right and continue to Eatontown Circle where Route 36 east intersects. Follow Route 36 through Long Branch, Monmouth Beach and Sea Bright to the Highlands turnoff.

## Report Description

This report presents available information from the Resource Conservation and Recovery Act Information System (RCRAInfo) about compliance evaluations, violations, and enforcement actions meeting the criteria supplied by the user. Evaluations showing no violations does not always indicate that no violations were determined. Violation without enforcement actions does not always mean no enforcement action will be issued. In order to avoid releasing enforcement sensitive information to the public the following information is not shown on the report: pending civil / judicial referrals, criminal actions and referrals, and State to EPA referrals; all other enforcement actions are released.
